

Service Technician (m/f/d)

for industrial water treatment plants

Location: nationwide

Starting date: As soon as possible

Working hours: Full-time

Position: permanent

About us:

We are a specialized company in the field of water treatment for industrial and commercial users. Our core competence lies in the development, design, manufacture, installation and support of plants and devices for the treatment of drinking and process water. We are looking for you to strengthen our service team – committed, reliable and technically adept.

Your tasks:

- Carrying out commissioning, maintenance and repairs on water treatment systems (e.g. reverse osmosis, softening, filtration)
- Error analysis, troubleshooting and optimization of existing systems at the customer's site
- Technical advice to our customers in the handling of the systems
- Documentation of the work carried out (digital)
- Instruction and training of operating personnel at the customer's site
- Cooperation with our technical office and the project team

Your profile:

- Completed technical training, e.g. as a mechatronics technician, electronics technician, plant mechanic, heating and sanitary technician or comparable
- Ideally, initial experience in the field of water treatment or environmental technology
- Good electrical and mechanical knowledge is an advantage
- Independent, structured and customer-oriented way of working
- Willingness to travel in the DACH region (possibly with overnight stays)
- Driving licence class B

We offer you:

- A responsible and varied job in a future-proof market
- Well-founded induction as well as continuous training and further education
- Modern work equipment, high-quality tools and a well-equipped service vehicle
- Attractive remuneration package including above-average expense regulation and capital-forming benefits (VwL)
- 30 days of vacation and flexible working hours by arrangement
- With us, your entire travel time to customer assignments counts as working time – including the journey home
- A familiar working environment with flat hierarchies and short decision-making processes
- Regular team events
- The possibility of leasing job bikes

Interested?

Then we look forward to receiving your detailed application with CV and relevant certificates – preferably by e-mail to: jobs@wal.eu
